Vesper Nox

Creative Technologist & Interface Architect

vesper@nox.design | San Francisco, CA | github.com/vespernox

EXPERIENCE

Senior Interface Architect Synthwave Labs 2023 - Present

- Lead the Design Systems and Frontend Experience team (7 engineers, 3 designers)
- Architected the component library powering three enterprise SaaS products
- Reduced first-paint time by 40% through render-pipeline refactoring
- Established accessibility review process eliminating WCAG AA violations

Lead Creative Developer Hollow Moon Studio 2020 - 2023

- Built interactive web experiences for Fortune 500 and arts organizations
- Developed Chromashift and the Hollow Design System
- Mentored 4 junior developers from bootcamp to mid-level in 18 months

Frontend Engineer Verdant (formerly Leafchat) 2018 - 2020

- Sole frontend engineer for a social platform (acquired)
- Built entire web client from scratch; survived two pivots and one rebrand

---
